

Build the Great Lakes Tunnel

Great Lakes.
Michigan  Jobs.

- Protecting the Great Lakes means safely boring the Great Lakes Tunnel **100 feet below the Straits of Mackinac**, safeguarding the Great Lakes from the risk of an oil spill.
- Building the Tunnel will **create hundreds of skilled trades jobs**, and protect thousands more in industries across Michigan.
- Building the Tunnel ensures Michigan workers and families can access and **afford the fuel they need** to heat their homes, schools, hospitals and businesses, and keep Michigan's economy moving.

Join the Great Lakes Michigan Jobs Coalition!

Michigan residents from all coasts and peninsulas are demanding the Great Lakes Tunnel. It's what's best for Michigan, and our coalition is growing.

Protect the Great Lakes. Protect Michigan Jobs.

Build the Tunnel to Protect Michigan Jobs.

Failing to build the Tunnel threatens more than 47,000 direct and indirect jobs in every corner of the state, devastating Michigan workers and their families.

Placing Line 5 in the Great Lakes Tunnel safely 100 feet below the surface of the lakebed will power Michigan's economy.

The pipeline delivers:

- **Fuel** for Michigan's cars and trucks,
- **Light** and heat for Michigan homes, schools and hospitals,
- **Power** for Michigan agriculture,
- **Materials** needed to manufacture more than 6,000 items we use every day, from automotive parts to roofing materials and tooth brushes.

Labor and Business. Democrats and Republicans. Yoopers and Downstaters.
The Great Lakes Michigan Jobs is a diverse coalition of Michigan residents
and organizations that support building the Great Lakes Tunnel.
